

Aggressive Growth Portfolio

Objective

Seeks to invest in large- and mid-market capitalization companies that have the potential for greater growth compared to the stock market and the overall economy.

About the Portfolio¹

Victory Capital Management focuses on identifying and purchasing high quality U.S. and foreign-based companies that have superior earnings growth characteristics, market leadership and strong management teams. Insistence on these fundamental growth and quality characteristics allows the Portfolio to employ a long-term approach to stock selection.

The Portfolio is not broadly diversified, although no one stock investment may exceed 10% of the total value of the Portfolio. Investments generally are concentrated in 25 issuers.

Top Account Holdings as of 12/31/09

Cognizant Tech Solutions Corp	Microsoft Corp
Apple Inc	Gilead Sciences Inc
Google Inc	Mastercard Inc
UBS RMA Money Market	Amazon.Com Inc
Teva Pharmaceuticals Ind Ltd	Qualcomm Inc

Special Considerations

Investors in the Portfolio should be able to withstand short-term fluctuations in the equity markets in return for potentially higher returns over the long term. The value of the Portfolio changes every day and can be affected by changes in interest rates, general market conditions and other political, social and economic developments, as well as specific matters relating to the companies in whose securities the Portfolio invests. It is important to note that an investment in the Portfolio is only one component of a balanced investment plan.

Footnotes

1. The permissible investments for this Portfolio are set forth in the Portfolio Disclosure Document (PDD) under the Wilmington Trust Fiduciary Services Company Collective Investment Trust for Employee Benefit Plans. The PDD and the Declaration of Trust for the Wilmington Trust Fiduciary Services Company Collective Investment Trust govern the management of the Portfolio and should be read in conjunction with this Profile. For additional information, contact your Financial Advisor.

The units of the Portfolio are not deposits or obligations of Wilmington Trust Fiduciary Services Company or any bank. The value of the Portfolio is not guaranteed by the FDIC or by any other Governmental agency. The units are subject to investment risk, including possible loss of principal invested.

2. All returns shown are time-weighted and include the reinvestment of income. Because the Portfolio was not established until 2/1/00, gross returns shown for the period prior to that date reflect the performance (less commissions on securities transactions but not of investment management fees) of the management team of Victory Capital Management using an investment management style similar to the one used in the Portfolio.

Gross returns shown for the period after 2/1/00 reflect performance, without the deduction of Wilmington Trust Fiduciary Services Company fees for trust and investment management services.

Net returns shown reflect the quarterly deduction from gross returns of fees paid to Wilmington Trust Fiduciary Services Company on equity and balanced Portfolios by all Wilmington Trust Fiduciary Services Company clients during the applicable period. Fees charged to any particular account may vary, and an account may have paid more or less than the amount used to reduce the gross returns, therefore, this representation of performance is not intended to reflect the actual performance an account would experience. The deduction of fees and the compounding effect of such deductions over time will reduce an account's performance on a cumulative basis as will timing and other individual account factors. An account that paid the highest fee payable for this Portfolio would have experienced a return of -1.32% for 3 years, 2.32% for 5 years, and -6.07% for 10 years. Please contact your employer for information about the Wilmington Trust Fiduciary Services Company fees charged to your plan's account.

3. The Russell 1000 Growth Index is the benchmark against which the Portfolio's performance is measured. The Russell 1000 Growth Index measures the performance of those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth rates. The Russell 1000 Index is composed of the 1,000 largest companies in the Russell 3000 Index. Data for the Russell 1000 Growth Index is provided by Russell Investments.
